2015, 2016 Student Placement Requests

We have a couple processes for taking parents input into class placements. The most helpful is for parents to speak with their current teacher and talk about the best placement for your child. Additionally, parents can also complete this Student Placement Form and return it to the North Saanich School Office.

We always do our best to place students in the best learning environment for their needs. Parents can help us achieve this goal by sharing their knowledge of their child with us. Below are areas that your input on your child would be of help to us in making our placement decision:

- your child's social/emotional strengths and needs
- your child's intellectual strengths and academic learning needs
- your child's learning styles
- teaching styles that work with your child
- your child's friendships that enhance or hinder their learning

Every effort will be made to place children in the best situation academically, socially and emotionally in the larger context of the needs of all the children. Please note that this is not a request for a specific teacher.

Thank you for taking the time to share your information on your child's learning needs for next school year.

Sincerely,

K. Russell
Principal

Child's Name: _____ Grade next year: _____ Today's Date _____

Present School: _____ Present Teacher _____

Educational information relevant to the placement of my child:

Parent's Signature: _____
